

KINGSLEY FYNN THOMPSON

Takoradi, Ghana | thompsonkingsleyfynn@gmail.com | [LinkedIn](#) | [Github](#) | [Portfolio](#)

SUMMARY

Backend Software Engineer with experience building scalable web applications, designing secure APIs, and working with cloud-based systems. Skilled in Python (Django), PostgreSQL, and distributed backend architectures. Passionate about solving complex technical problems and delivering clean, efficient, and reliable backend solutions.

EDUCATION

Amalitech Training(University Edition) — AWS Cloud Partitioner (CCP), Nov 2025

Takoradi Technical University — B.Tech. Software Engineering, Dec 2026

SKILLS

Languages & Frameworks: Python(Django)

Databases & Cloud: PostgreSQL · MySQL · AWS (EC2, S3)

AI & Data: OpenAI API · ChatGPT

Tools & Practices: RESTful APIs · Git/GitHub · Agile

EXPERIENCE

Backend Developer *Apr 2025 – July 2025*

Amalitech gGmbH On site

- Developed backend services and APIs using Python (Django).
- Translated technical requirements into backend services while maintaining clean and reusable code architecture.
- Developed and maintained REST APIs for data processing, persistence, and retrieval.
- Redesigned backend components for better modularity, maintainability, and performance optimization.

Backend Development *Aug 2025 – Oct 2025 Amalitech gGmbH On site*

- Built and maintained backend services and APIs using modern server-side technologies, with emphasis on scalability and reliability.
- Collaborated with cross-functional teams to design, develop, and deploy scalable backend systems and services.
- Participated in code reviews, sprint planning, and backend feature implementation within Agile workflows.

Network Technician *Aug 2024 – Oct 2024 Ghacem Company LTD On site*

- Provided technical and operational support to internal teams for networking-related tasks.
- Assisted internal departments with network support, troubleshooting, and day-to-day IT operations.
- Supported internal teams with network device setup, configuration, and maintenance activities.

Network Technician *Sep 2023 – Nov 2023 Ghacem Company LTD On site*

- Terminated network cables (RJ45) for internal infrastructure.
- Provided printer maintenance and support, including setup and issue resolution.
- Assisted in assembling system units and preparing them for deployment across the organization.

PROJECTS

E-Commerce Web App

- Full-stack online store with authentication, Paystack payments, and an admin dashboard.

Tech: HTML, CSS, JavaScript, python(Django), SQLite

Customer Service App

- Support platform with ticketing, real-time chat, and inquiry tracking. **Tech:** Python (Django), PostgreSQL

Bank Ledger System

A software that records and manages all financial transactions, tracking account balances, debits, and credits accurately

Tech: Django(python), PostgreSQL

FASSA Student Application

- Developed the backend of a web platform for FASSA students, managing resources, announcements, and academic tools.

Tech:Python (Django), PostgreSQL

Instagram Clone

- A social media web application that allows users to share posts, follow others, and interact through likes and comments..

Tech: Python (Django), PostgreSQL

CERTIFICATIONS

Internship Certificate *April 2025*

AWS Certified Cloud Practitioner *Nov 2025*
